Work Experience

Apr 2023 – Current

Product Designer | TWNTY DIGITAL GmbH

Design Systems & Efficiency:

Architected and managed comprehensive Design Systems for key clients (Priwatt, Mission Zero, Tilray Brands), standardizing UI libraries of over 400+ components, which reduced design-to-development delivery time by 75% and saved an estimated 20+ hours of manual work per sprint.

Rebranding & Scalability:

Spearheaded end-to-end digital rebranding and responsive website redesigns for Priwatt and Tilray, resulting in a 40% increase in cross-platform consistency and supporting a 2x growth in digital traffic post-launch.

UX Optimization & Growth:

Led a UX optimization project for Priwatt GmbH that boosted conversion rates by 25% and decreased homepage bounce rate by 15% through heat-map analysis and data-driven layout restructuring.

DesignOps & Collaboration:

Revolutionized agency DesignOps by implementing a standardized QA and handoff workflow in Figma, bridging the gap between design and engineering. This reduced post-launch UI bugs by 60% and cut down developer "handoff" meetings by 4 hours per week.

Jan 2022 – Aug 2022

Product Designer | Natanek Iberia S.L

Product Launch & Operational Impact:

Designed and launched the V1.0 MVP of a custom CRM for a leading European logistics firm, automating manual workflows and improving daily operational efficiency by 35% for a team of 50+ users.

System Architecture & Consistency:

Developed a comprehensive, company-wide UI Kit with 200+ reusable components, ensuring 100% visual consistency across all modules and reducing "design drift" by 50% during rapid feature scaling.

User Flow Optimization:

Analyzed and re-engineered complex user flows for core logistics modules (Dispatch & Tracking), reducing the average "time-to-task" by 20% and decreasing user-reported navigation errors by 15%.

Jul 2019 – Jan 2022

Freelance UX/UI Designer

Delivered UX/UI design for 10+ clients across web, covering e-commerce, SaaS, and service platforms.

Designed wireframes, prototypes, and high-fidelity interfaces using Figma, translating client briefs into production-ready assets

Maintained long-term client relationships with consistent on-time delivery and iterative feedback cycles
